The World's No.1
Trade Fair for
Plastics and Rubber

19-26 OCTOBER 2022
Düsseldorf, Germany

AS ANTICIPATION.

THE LEADING BUSINESS PLATFORM FOR THE PLASTICS AND RUBBER INDUSTRY.

Welcome to K 2022, the world's leading trade fair for the plastics and rubber industry. The trade fair will open its doors to visitors again this October, when global experts from industry and research will be showcasing groundbreaking innovations, ideas and solutions for the world of tomorrow. The event will also provide a platform to explore game-changing mega trends, such as the circular economy, digitalisation and sustainable solutions to today's global challenges.

We look forward to seeing you at K 2022, an event not to be missed for businesses seeking information and investment inspiration.

CIRCULAR ECONOMY

DIGITALISATION

CLIMATE PROTECTION

K AS THE CUTTING EDGE: THE SECTOR'S HOTTEST TOPICS.

Our industry is always looking towards the future and considering what really matters. At K 2022, we'll be focusing on the most pressing issues of our time and providing a platform where our industry can learn how to master the challenges that lie ahead.

- **Circular economy:** the most crucial field of action for the plastics and rubber industry. Key focus areas: plastic recycling and processing of recyclates.
- **Digitalisation:** digital networking as a vital component of corporate success. Key focus areas: networked value creation and the platform economy.
- **Climate protection:** the most important global issue of our time. Key focus areas: lightweight construction, electric mobility, water management, renewable energy.

K AS DIALOGUE: SPECIAL SHOW AND SPECIAL AREAS.

Thinking and acting differently are vital to creating a real paradigm shift for our planet. And this applies to the plastics and rubber industry as well. K 2022 is ready to meet these challenges. That's why we have a host of exciting discussions lined up with top experts, research scientists and representatives from various institutes and service providers, among others:

■ **Special show**

Welcome to the industry's global stage where you will discover exciting formats and thought-provoking discussions. The topics: sustainability, circular economy, digitalisation, global networking, the industry's young talent and much more.

■ **Science Campus**

A forum for research and teaching: universities, colleges and scientific institutes present the latest research for the plastics and rubber industry – they're looking forward to talking to you at the Science Campus.

■ **Circular Economy Pavillon**

The place to be at K 2022 for anything relating to the circular economy. Exhibitors located here will provide data, facts and examples from best practice to inform you about the wide range of solutions that are available today.

■ **Start-up Zone**

The starting point for young, innovative companies setting out in the plastics and rubber industry. Don't miss this great opportunity to find out more about the freshest and most unusual ideas around.

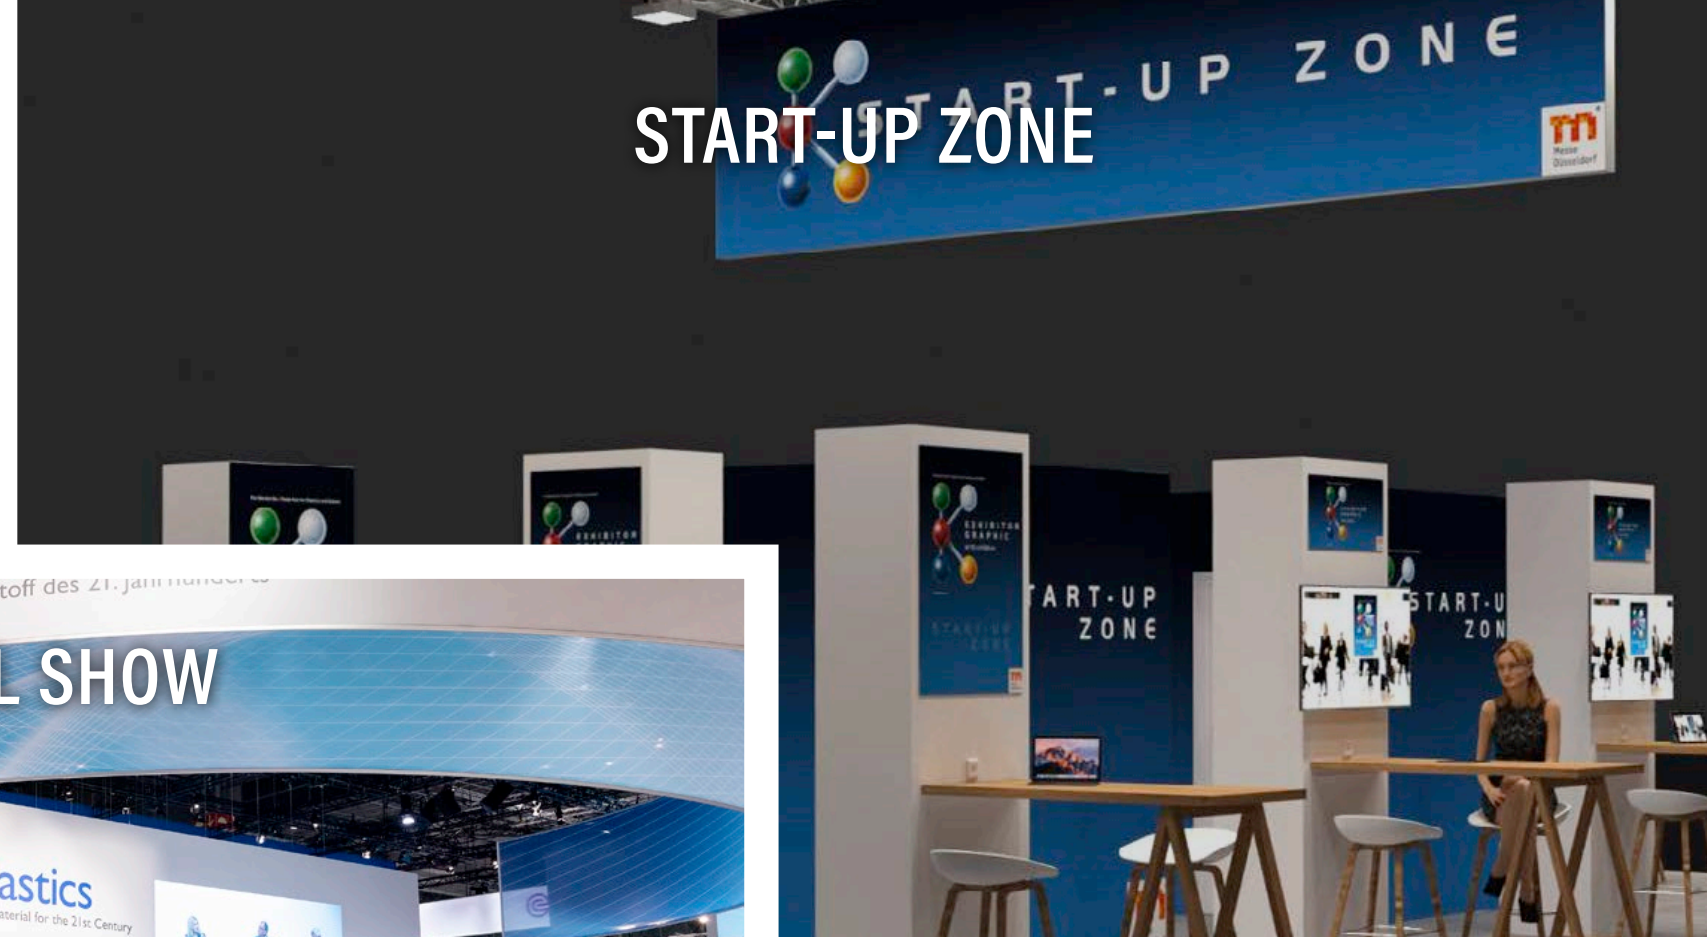

■ **Rubberstreet**

Rubberstreet is a permanent fixture at the K trade fair. This year, it will once again serve as a great place to meet and learn more about flexible materials. Here you can check out the latest innovative products and processing techniques for rubbers and thermoplastic elastomers.
